NOTICE

DATE: 3/31/2015

TO: Residents of Elmwood Street, Ferry Street, Keith Hill Road and Adjacent Neighborhoods

RE: Street Reconstruction

The Department of Public Works has initiated preparations for the reconstruction of the roads listed above.

The projects **may** entail some of the following activities:

- Relocation of utility poles and overhead wiring.
- Removal of trees within the Town right-of-way.
- Removal and relocation of private yard fences and other encroachments within the Town right-of-way.
- Installation/replacement of storm water infrastructure.
- Reclamation and pulverization of existing pavement.
- Re-grading of sub-grade and minor horizontal and vertical roadway profile alignment for drainage and safety improvements.
- Placement of binder course (bituminous asphalt)
- Adjusting drainage structures frames, water & gas gates to final grade.
- Placement of top course (bituminous asphalt).
- Loam and seed shoulder area (lawn areas near edge of pavement).
- Transition driveway aprons to new roadway surface.
- Placement of pavement markings, regulatory and street signage.

Construction crews will commence work from 7:00 am to 4:00 pm Monday through Friday except holidays. The projects are scheduled to start on or about **April 27, 2015** and will be completed as expeditiously as possible.

If any residents have foundation or perimeter drains discharging to catch basins or out to the roadway, please inform this office to make us aware so we can maintain the integrity of the pipe and not cause any damage to the drainage system. Any unidentified pipes encountered will be treated as abandoned unless we are aware of their existence.

All of Elmwood and Ferry Streets, and Keith Hill Road, from Old Upton Road to Salisbury Street, will be closed to through traffic during road construction. Detours will be established for general traffic flow. The closing of the road will make the construction zone safer for both the residents and construction crews. It will also accelerate the project completion time and vastly improve the overall quality of the project.

If you have any further question or concerns please contact the DPW office at 508-839-5335 or visit our website at www.grafton-ma.gov.

We apologize for any inconvenience and thank you in advance for your patience and willingness to work with us in this endeavor.

The DPW will continue to keep you informed on the development and progress of this project through notices, Twitter, Facebook and website posting.
